

Liqua-D™ (K87)

Liqua-D™ supports the immune system and the skeletal system by offering high-potency vitamin D3 (cholecalciferol) in a liquid form.* Each drop contains 2000 IU of vitamin D, which is 500% of the recommended daily value. Liqua-D™ allows healthcare professionals to conveniently adjust the vitamin D intake of those they care for. Liqua-D™ is formulated with only two ingredients—vitamin D3 and MCT oil (as a biologically active carrier)—to minimize the risk of sensitivities.* In addition to immune and skeletal support, this product may also support the balance of calcium and phosphorus.*

Supplement Facts

Serving size 1 drop
Servings per container 550

	Amount Per Serving	%DV
Vitamin D3 (as cholecalciferol)	2000 IU	500%

Other ingredients: MCT oil.
