

Neem

Detoxification for Pitta and Kapha*

500 mg tablets, 90 per bottle

- **Maintains healthy skin***
- **Detoxifies the liver and blood***
- **Removes excess pitta and kapha from the system***

Commentary:

Neem is widely used in Ayurveda because of its effectiveness in dealing with nearly all types of pitta and kapha imbalances. Bitter and very cooling, it is usually combined with other herbs to offset its vata-aggravating qualities. Neem has traditionally been used to purify the blood, cleanse the liver and support the immune system. It is also commonly used to support healthy skin and to maintain healthy blood glucose levels already within the normal range.*

Ingredients: Each tablet contains Neem leaf. Other ingredients, from natural sources: organic maltodextrin, silicon dioxide.

*Certified organic

Supplemental Facts

Details
